New Jersey Clean Communities is a grassroots, community-driven, statewide litter abatement program funded by the Clean Communities Act, to reduce litter in the Garden State. The New Jersey Clean Communities Council and the state departments of Environmental Protection and Treasury manage the program.

In keeping with its charge to work with municipalities and counties to keep New Jersey clean, the New Jersey Clean Communities Council has formed a statewide Urban Cleanup Team. On September 17th & October 8th and 15th, the Council is teaming up with the City of Paterson to clean public lands.
